Experiences

- ◆ **Unlikely Technology** / Paris – remote
Web agency located in Paris. Specialized in design and luxury e-commerce websites · (June 2024 – today)
- ◆ **Work for stay** / United States of America
Three-months stay in Madison, WI and Rumney, NH. There to discover the culture, improve my English and meet many great people. · (February – May 2024)
- ◆ **Studio WAWWW** / Paris – remote
Front-end developer specialized in the integration of complex and optimized animations, working with renowned brands · (August 2023 – today)
- ◆ **Dernier Cri** / Bordeaux
Confirmed web and mobile developer within the agency Dernier Cri – Product factory with impact · (2021 – 2023)
- ◆ **Freelance – Digital creation**
Creation of graphic elements, websites and mobile apps for individuals and businesses · (2019 – today)

Notable Projects

- ◆ **Givenchy** / Studio WAWWW
Web project for the Givenchy brand. The goal was to offer a scalable press site, by offering pre-developed animated sections. Created on a Next.js / TypeScript base, the sections animated in Vanilla JS are independent and the content is fully customizable.
- ◆ **Maison Sablayrolles – E-commerce** / Studio WAWWW
E-commerce website bringing together a community of artists. The site brings together the works and presents upcoming physical events. A page is dedicated to each artist or event, each with its own universe.
- ◆ **Mobile app – iad mobile** / Dernier Cri
React Native / Swift application development at the Dernier Cri agency. Internal application at the iad real estate agency for managing the property of each employee.
- ◆ **Barney App – Event aggregator** / Freelance
React Native / Swift application development from scratch. The app groups events around the user and integrates a ticketing, group, event creation and dynamic display system on a map.
